Parents and the transmission of information

The parents of a child with S.E.N. can provide valuable information to the school in relation to their child’s learning difficulties, learning differences and learning preferences. The S.E.N. team seeks relevant professional reports from parents of students with S.E.N. upon enrolment. Copies of Professional Assessment Reports or student support plans are also requested from their previous school.

Parents

The school provides parents with regular reports on the progress of their child.

- The school journal is used for weekly/ daily home-school communication, parent/teacher meetings are held once a year for face to face communication.
- Students receive a written school report twice in the school year (at Christmas and Summer)
- Special arrangements may be made with the parents/guardians in relation to the homework that each individual student with S.E.N. is expected to undertake.
- Regular communication is available through meetings on request.
- Parents can help the school by keeping teachers informed of the progress/ difficulties they observe in their child’s learning. This should include showing an interest in the completion of homework and familiarising themselves with approaches taken in school.

Students

The S.E.N department involves students in discussions around their learning needs.

- Students have input into their learning targets
- Students are involved in the planning of their Student Support Plan.
- Students on behaviour support plans are encouraged to self monitor.

**The school believes that achievements are maximised when students take ownership of their learning.*

Provision and the Continuum of Support

The model of assessment and intervention recognises that special educational needs occur along a continuum, from mild to severe and from transient to long term. Our response to the needs of students is organised according to NEPS Continuum of Support.

Student Support Plans are compiled if a student is in receipt of Learning Support/ Resource hours. The SENCO, subject teacher, outside agencies, the student and the parents are involved in the development of the plan at the start of the academic year. Monitoring and assessing is the responsibility of S.E.N Team, class teacher and Learning Support Teacher. Reviewing the plan and targets is undertaken throughout the year.

The Student Support plans are saved in the SEN shared Google drive. Professional reports e.g. Psychological Assessments, Speech and Language Assessments, Occupational Therapists reports, Audiology Reports etc. will be held on the student file in a locked cabinet in the SEN room. No duplication is permitted.

The Student Support Plan process involves:

1. Gathering Information: Personal/ Background details.
2. Educational details (primary school details/assessment and learning support details.
3. Assessment reports/ information obtained from parents.
4. Priority Need.
5. Setting targets for each priority learning need.
6. Identifying the strategies and resources required.
7. A review occurs bi-annually.

Enrolment

The school's admissions policy outlines the procedures with regard to the enrolment of students with S.E.N.

Provision for students with known and documented needs

The transfer of information from primary to post-primary level is vital to the successful support of students with SEN. Following acceptance of a place in the school, parents of incoming first years are invited to attend an information meeting outlining practical supports, guidance supports and pastoral care structures.

The Special Needs Coordinator will also:

- Liaise with the Guidance Counsellor regarding information collected from the feeder Primary Schools.
- Liaise with Primary School and parents/guardians of students with very specific needs who would benefit from more than one visit to the school.
- Meet with the parent/ guardian of incoming students with S.E.N.
- Establish communication with the primary school resource/ learning support teacher.

- Liaise with the Principal in the application process for Resource Teaching Hours/S.N.A. support/ Assistive Technology

After accepting a place in Cnoc Mhuire:

- All incoming first year students take a Cognitive Ability Test (CAT 4) to identify strengths/ weaknesses. This data is used to help identify students who may need additional support, including exceptionally able students.
- At the start of each academic year, students on the S.E.N. Register are reviewed individually in terms of the type of support needed and curriculum load.

Students transferring into other Year Groups

When a student is accepted into a year group other than First Year, information may be requested from their previous school (NEPS Report, School Reports, attendance, etc.) by the Principal/ Deputy Principal. Any relevant information is then passed to the Year Head and the Special Needs Co-ordinator.

Provision for students with emerging needs

For students with emerging needs, including the exceptionally able, the concern may have been identified through the whole school screening and monitoring systems (CAT4, in class assessment, informal observation, parental concern). Some students will need further individual or diagnostic testing to identify the nature of their needs (both learning and behavioural) Parental consent is obtained before diagnostic tests are administered.

Models of S.E.N./ EAL/ ASD provision

In assessing and deciding which students need to be in receipt of supplementary teaching and which students may benefit from support within the mainstream context, the following options are considered:

- Curricular differentiation
- Team Teaching/Co-operative Teaching
- In-class support/Differentiation
- Inclusion of S.N.A. in specific classes
- Small group withdrawal
- Individual withdrawal
- Organisation and Life Skills lessons
- L2LP provision
- Curricular reduction in exceptional cases

The period of intervention recommended for each student is dependent on the nature and extent of their individual need. The duration of provision is varied and is reviewed throughout the intervention. There are cases where support is needed on a short-term basis, after which the student is in a position to recommence with the regular curriculum. All decisions in this regard

are discussed with parents/guardians, class teachers, the student, principal and guidance counsellor.

Reasonable Accommodations for State (R.A.C.E.) and In House Examinations

In conjunction with the SEN team, applications are made for R.A.C.E. provision for SEN students sitting State Examinations. A range of accommodations are available to the students as per circular criteria laid down by the S.E.C. Further details available at www.examinations.ie. Where resources permit, reasonable accommodations are available to students who qualify for such accommodations at mock exams and in-house exams.
